DETAILED ACTION***Election/Restrictions***

This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

- 1) Figures 1-7; 2) Figures 8-13; 3) Figures 14-20; 4) Figure 21; 5) Figure 22;
- 6) Figure 23; 7) Figure 24; 8) Figure 25; and 9) Figures 26-33.

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

The claims are deemed to correspond to the species listed above in the following manner:

Species 1 corresponds to claims 35, 37-39, 46-53, 55, and 71.

Species 2 corresponds to claims 35, 37-39, 44, 45, 51-55, and 71.

Species 3 corresponds to no current claims.

Species 4 corresponds to claims 35-39, 44, 45, 51-53, 55-65, and 68-71.

Species 5 corresponds to claims 35, 37-39, 44, 45, 51-53, 55-64, and 66-71.

Art Unit: 3654

Species 6 corresponds to claims 35, 37-39, 44, 45, 51-53, 55, and 71.

Species 7 corresponds to claims 35, 37-39, 44, 45, 51-53, 55-65, and 68-71.

Species 8 corresponds to claims 35, 37-41, 43-45, 51-53, 55, and 71.

Species 9 corresponds to claims 35, 37-45, 51-53, 55-64, and 68-71.

The following claim(s) are generic: No claims are generic.

The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons: The above species lack a corresponding special technical features, because the species include unique elements with examples being a belt drive, chain drive, retractable spikes, pivotable spikes, no spikes, movable guide rail, that are not obvious alternatives.

A telephone call was made to Douglas Hanscom on March 12, 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
